

CLEANING

Rubbish bins and cleaning solutions

Araven rubbish bins are essential allies in the implementation of APPCC systems in cleaning processes. Their lids are activated stepping on a pedal, which enables to throw the rubbish with no hands touching the bin, contributing not to contaminate with them other work areas nor food to be handled afterwards.

In addition, its resistant material allow them to be cleaned and disinfected in case to do a correct maintenance of the rubbish area, preventing any bacterial proliferation.

-  Stiffened plastic pedal
-  Full accessibility
-  Ergonomics
-  Code for recycling
